

Editor Hugh Wilson, of Abbeville, after some timely advice on economy, proceeds thus wisely on debt paying:

First of all, pay your debts. Pay the smallest first. The man to whom you owe a dollar and a half will worry you more than the one who claims a thousand dollars. A great many people make the mistake of paying small payments on large debts, instead of paying small debts in full. The world excuses the debtor who owes a large sum, but the man who neglects to pay small debts injures his credit in the eyes of the business world. Each man should be jealous of his credit. Pay small debts, if you have to borrow the money. Establish the reputation of being a debt payer—and this cannot be done if you allow small debtors to complain of your neglect. Better owe for the house you are living in than to be in debt to your wash woman.

The Dreaded Consumption.
T. A. Slocum, M. D., the great chemist and Scientist Will Send Free to the Afflicted, 3 Bottles of his Newly discovered Remedy to cure Consumption and all Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. D., of 183 Pearl street New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of The County Record who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. D., 98 Pine street, New York, and when writing the Doctor, please give express and postoffice address, and mention reading this article in the County Record.

Open the door of your mind to good thoughts and evil ones will be driven out.

Modern Treatment of Consumption
The latest work on the treatment of diseases, written by forty eminent American physicians, says: "Cod-liver oil has done more for the consumptive than all other remedies put together." It also says: "The hypophosphites of lime and soda are regarded by many English observers as specifics for consumption."
Scott's Emulsion
contains the best cod-liver oil in a partially digested form, combined with the Hypophosphites of Lime and Soda. This remedy, a standard for a quarter of a century, is in exact accord with the latest views of the medical profession. Be sure you get SCOTT'S Emulsion.

We have no hesitation in saying that the commercial history of this city has never shown an instance of greater progress than ours, in so short a time, when it is understood that this growth has been accomplished within a few years, in the face of the keenest competition with the largest houses in the city. Our success has shown that we have gauged the wants of the people of this city in our line with unerring instinct and demonstrated that our method of keeping reliable goods only and selling at a small margin of profit is the right one.
Below will be found a few of our quotations, which speak for the accuracy of our statements:
